CPE 486/586 Classwork 01: Introduction and Tools

Student Name (as in Canvas): _____

A Number: _____

Points: 20 Duration: 15 minutes Due: August 26, 2026 (In-Class)

1. How supervised learning differs from unsupervised learning? **(5 Points)**

Answer

2. Why do you need test dataset during training of a machine learning model ? **(5 Points)**

Answer

3. What does each of the commands below do? **(5 Points)**

   (a) `git add .`

   (b) `mkdir mldirectory`

   (c) `cd mldirectory`

(d) `ls`

(e) `git pull`

Answer

4. What is the role of a cost function in training a machine learning model? **(5 Points)**

Answer
